COURSE SHARING POWERED BY Acadeum

Join the CCCU Online Course Sharing Network

The CCCU Online Course Sharing network, powered by Acadeum, allows faith-based institutions to seamlessly share courses, develop new programs, expand general education courses, and more.

Through course sharing, your institution can share and access open seats in online courses from mission-aligned colleges and universities. Students receive full credit and grade for the course, and your institution earns revenue by filling seats and strengthening retention.
